## WHAT NEEDS DOING

### BUILDING PROJECT

- More soils with clay (mostly where Infirmary stood and what contributed to its slow decent downhill) to be replaced with road based material to ensure a firm foundation
- Dig and install drain line from building site to nearby stream
- Install concrete tank to collect spring water (from curtain drains) that will then be treated for potable water
- Road to Staffville graded and smoothed for vehicle access
- Driveway to Chapel side of camp to be graded and smoothed (assuming it has a chance to dry out from weekend rains!)

### KITCHEN / HOUSEKEEPING / OFFICE

- Hosting Mountain Community Church retreat
- Meals and HK for weekend guest groups:  
October 3-5, 9-12, 30-31  
November 1-2, 7-9
